WARRANTY, TERMS AND CONDITIONS

LAMPOLET s.r.l offers on all the sofa beds mechanisms a total **3 years warranty** with free substitution of faulty goods from our headquarters or authorized retailers. The warranty will be valid and operative under the following conditions:

1) The mechanism must be accompanied by the warranty adhesive label indicating month and year of production;
2) It must be proven that the breakage of the mechanism is due to production default and not to improper use and particularly:
   a) The wrong habit of leaving blankets and pillows within the mechanism when closing the sofa bed (this could damage the unit);
   b) Use of mattresses which do not fit the established parameters (too high, too wide, too long)

From the warranty are excluded damages due to transportation.

Lubricate hinges annually with High Density Oil avoiding drips which may soil the fabric. Sounds originating from moving metal parts are normal in the absence of adequate lubrication. Please ensure that an adequate insulator is fixed permanently over mechanism to protect mattress and cushion fabrics. Lampolet will not be responsible for damages caused by exposure to metal parts of the mechanism.

Important

Precautions and instructions referred to herein are to avoid the risk of injury to people or animals and the damage to property. Please read carefully. Degrees of hazard will be illustrated by the following symbols of **WARNING** and **MAXIMUM WARNING**.
